PROFESSIONAL SUMMARY

MCA candidate (2026) specialising in **NLP, Transformer-based Deep Learning, and Generative AI**, with hands-on experience building and deploying AI-powered applications using Streamlit. IEEE-published researcher whose question generation system achieved **85–90% Bloom’s Taxonomy classification accuracy**. Seeking a role in **AI/ML, NLP, or Software Development** to deliver real-world language-intelligence solutions.

EDUCATION

Master of Computer Applications (MCA) <i>Shri Vile Parle Kelavani Mandal’s Institute of Technology, Dhule</i>	2024 – 2026 CGPA: 6.73
Bachelor of Computer Applications (BCA) <i>RCPET’s Institute of Management Research and Development, Shirpur</i>	2021 – 2024 CGPA: 8.83
Higher Secondary Certificate (HSC) <i>D.S. Jamadar Junior Science College, Thalner</i>	2020 – 2021 85.83%
Secondary School Certificate (SSC) <i>S.G.M. Vidyalaya, Thalner</i>	2018 – 2019 80.80%

TECHNICAL SKILLS

Programming Languages	Python, Java, C++
AI / ML	NLP, Generative AI, Transformer Models, Prompt Engineering, Deep Learning
Frameworks & Libraries	Streamlit, HuggingFace Transformers, PyTorch, Pandas
Web Technologies	HTML5, CSS3, JavaScript, PHP
Databases	MySQL, MongoDB
Tools & Platforms	Git, GitHub, VS Code, Linux
Core Concepts	OOP, DBMS, REST APIs, Problem Solving

RESEARCH PUBLICATION

IEEE ICCECE 2026 — International Conference on Computer, Electrical & Communication Engineering *West Bengal, India*

“A Deep Learning Approach for Generating Pedagogically Aligned Questions Using Bloom’s Taxonomy”

Tech Stack: Python, Streamlit, FLAN-T5, Zero-Shot Classification (HuggingFace Transformers)

- Designed an end-to-end AI pipeline that ingests raw text or PDFs and outputs Bloom-level-tagged questions.
- Implemented FLAN-T5 for pedagogical question generation and Zero-Shot Classification for Bloom-level verification.
- Achieved **85–90% Bloom classification accuracy** through iterative prompt engineering.
- Shipped a Streamlit web application with PDF upload, per-level filtering, and one-click CSV export.

PROJECTS

Automated Question Generation System Python · Streamlit · FLAN-T5 · HuggingFace Transformers	2025
- Extended the IEEE research prototype into a production-ready tool with multi-document batch processing and exportable question banks. - Refactored the NLP inference pipeline, reducing average response latency.	
Bank Locker Management System PHP · MySQL · HTML · CSS	2023
- Built a full-stack secure locker management system handling customer records, locker allocation, and transaction history. - Enforced role-based access control and parameterised SQL queries to eliminate injection vulnerabilities. - Delivered an admin dashboard for real-time locker occupancy monitoring and customer management.	
Personal Portfolio Website HTML · CSS · JavaScript · Live Demo ↗	2026
Developed a responsive, mobile-first portfolio with smooth scroll animations and integrated GitHub and LinkedIn links.	

INTERNSHIP EXPERIENCE

Cybersecurity with AI Intern

Aug 2025 – Sep 2025

NIIT Foundation

- Analysed real-world threat vectors – phishing and social engineering – using AI-assisted detection frameworks.
- Authored an organisational cyber-awareness report that was adopted for internal security training.

Web Development Intern

Mar 2024 – Apr 2024

TechnoHacks EduTech

- Delivered 5+ responsive web pages (HTML5, CSS3, JavaScript) with measurable improvements in mobile UI performance.
- Contributed to Agile sprints through daily stand-ups, pull-request reviews, and iterative releases.

CERTIFICATIONS

Python Programming Foundation · Microsoft SQL: 01 – The Fundamentals · Java Essentials

Become a Python Data Analyst · Generative AI · Cybersecurity Fundamentals

Introduction to Prompt Engineering · Microsoft Azure AI Essentials

ACHIEVEMENTS

- **IEEE Publication:** Research paper accepted and presented at IEEE ICCECE 2026 International Conference, West Bengal. [View Certificate ↗]
- **Academic Excellence:** Secured 8.83 CGPA in BCA – among the top performers in the department.
- **Certificate of Participation:** AVISHKAR 2025 Idea Competition at TECHNOCAVE, SVKM IOT, Dhule – 16 May 2025.
